

Last week on the 20th of October 2023, the partners of the Erasmus+ project REBUILT came together for a productive online meeting. We delved into the current progress and project management, with a special focus on Result 3 - the REBUILT low-carbon transition action plan for businesses. 🌱

Excitingly, all partners are actively collaborating to develop this plan, paving the way for a more sustainable and eco-friendly future. Stay tuned for more updates on our journey! 🌍👉
